MPO Cassette

ICC's pre-terminated MPO fiber optic cassette modules are designed for a simple "plug and play" system that requires no field termination or splicing, saving significant amount of time during installation. The back end of the cassette houses an MPO adapter for quick plug and play with ICC's fiber optic MPO jumpers.

Features

- A** All of ICC's MPO Fiber Optic Cassettes are designed to easily snap into existing ICC fiber optic wall and rack mount enclosures or fiber optic patch panels.
- B** Back end of the cassette houses one MPO port for quick "plug and play" for up to 12 fibers per port.
- C** Various options for 10Gig, 50/125µm and 62.5/125µm SC and LC simplex and duplex connections.
- D** Cassettes are designed with port numbered labels to help end users with port identification.
